About the Seminar

Tourism is travel for pleasure or business; also the theory and practice of touring, the business of attracting, accommodating, and entertaining tourists, and the business of operating tours. Tourism can be domestic or international, and international tourism has both incoming and outgoing implications on a country's balance of payments. Tourism brings large amounts of income into a local economy in the form of payment for goods and services needed by tourists. Tourism is usually seen as positive, contributing to employment, better services, and social stability. It may also improve in terms of cultural education which one may have not considered. Yet these impacts can also contribute to high living costs within the community, pushing local business out of the areas, and raising costs for locals. India's GDP increase comes from the over one billion international tourists worldwide, a number that has been growing by 5 percent annually since 2012. Tourism industry is on boom from last few years which has led to open number of opportunities for aspirants who are interested to work in the industry. The motive of the conference is to cover the areas of opportunity and challenges in Tourism .

Objectives of the Seminar

1) To Understand the Contribution of Tourism to promote socio-economic growth and development.
2) To identify the various challenges in tourism industry and ways to overcome them.

Description of Programme:

A patent is a form of intellectual property that gives its owner the legal right to exclude others from making, using, selling, and importing an invention for a limited period of years, in exchange for publishing an enabling public disclosure of the invention. In most countries patent rights fall under civil law and the patent holder needs to sue someone infringing the patent in order to enforce his or her rights. In some industries patents are an essential form of competitive advantage; in others they are irrelevant. We want to give our students, entire information regarding patents.
